

MOHAMED AZLAN

Data Scientist

PROFILE SUMMARY

Passionate and results-driven Data Scientist with a strong foundation in data analysis, machine learning, and statistical modeling. Skilled at uncovering meaningful insights from complex datasets and translating them into actionable strategies that drive business growth and innovation.

WORK EXPERIENCE

Data Scientist in Marketing Analytics *April 2024 - Present*
Perniagaan Normahas Sdn. Bhd.

Customer Insights & Campaign Optimization

- Applied machine learning and statistical models to analyze customer behavior and segmentation.
- Helped optimize digital marketing campaigns by identifying high-performing channels and target audiences.

Data Driven Strategy

- Designed and executed data-informed marketing strategies across social media, content, and e-commerce platforms.
- Improved ROI by using predictive analytics to guide budget allocation and campaign timing.

Business & Performance Analytics

- Analyzed business models and campaign performance to highlight areas for growth and efficiency improvement.
- Built dashboards and reports that translated complex data into clear, actionable insights for marketing and management teams.

Cross-Functional Collaboration

- Worked with marketing, sales, and operations teams to align data insights with business goals.
- Ensured all analytics-driven recommendations complied with industry standards and regulations.

IT Support Specialist + Data Analytics *Aug 2021 - Dec 2023*
FashionValet Sdn. Bhd.

Operations & System Management

- Optimized OPS and POS systems to streamline warehouse and store operations, improving efficiency and reducing downtime.
- Provided end-to-end Shopify support (web, app, ShopifyPOS) to ensure seamless customer experience and smooth sales operations.

Data Analytic & Reporting

- Spearheaded the implementation and administration of Metabase, enhancing company-wide reporting and data-driven decision-making.
- Leveraged SQL queries and analytics tools to troubleshoot system performance and generate actionable insights.

Problem Solving & Testing Application

- Applied analytical thinking and innovative problem-solving to resolve complex system and operational challenges.
- Conducted software testing on website and mobile applications, contributing to better system reliability and user experience.

Technical Support & Maintenance

- Managed hardware repairs, setup, and router administration to ensure reliable infrastructure.

EDUCATION

Master in Data Science *2025 - 2026*

Universiti Teknologi Malaysia

Bachelor of Computer Science (Software Engineering) *2017 - 2021*

Universiti Teknologi Malaysia

Diploma in Information Technology *2014 - 2017*

Universiti Tun Hussein Onn Malaysia

Sijil Pelajaran Malaysia *2013*

SMK Dato Seth, Yong Peng

HARD SKILLS

Software Development Life Cycle Functional & Non-Functional Testing Manual Testing
Support End User
Bug Tracking
Operating Systems
Networking
Server Administration Troubleshooting Skills
IT Security
Backup and Recovery
Database Management Documentation
Power BI
Machine Learning
MongoDB (NoSQL)
Tableau

SOFT SKILLS

Communication
Teamwork
Adaptability
Problem Solving
Leadership
Strategic Thinking
Time Management
Multitasking

LANGUAGE

Tamil
Malay
English

SOFTWARE / APP

Google Colab
VS Code
Python
Figma
Shopify & ShopifyPOS
Tawk (Support Application)
TestLink
Adobe Photoshop, Adobe
Illustrator & Adobe Premiere Pro
Laravel
Firebase & MySQL
Objective C & Swift Code
Postman API

AWARDS & INVOLVEMENTS

- Gold Award, Captain Carnival Game, 2016
- Participant, Java Programming Language, International University Carnival of E-Learning, IUCEL UTM for Captain Carnival Game, 2016

CERTIFICATE

- Foundation in UI/UX Certification, Google Coursera
- UI/UX Course Certification, Udemy
- AWS Machine Learning
- MongoDB Certification

PUBLICATION

- Captain Carnival Game: Game Based Learning Application for SPM English Literature Novel
- Research Paper Copy-Move Image Forgery Detection using Deep Learning Method

INTEREST

- Photography
- UI/UX Design
- Travel
- Music

REFERENCE

- Provided Upon Request

WORK EXPERIENCE (CONTINUE)

iOS Developer Intern

Aug 2020 - Feb 2021

Bayo Pay (M) Sdn. Bhd.

Application Development

- Collaborated with a cross-functional team to develop and implement new features for the Bayo Pay mobile application, contributing to the enhancement of user experience and overall app functionality.

Full Software Lifecycle

- Actively participated in the entire software development lifecycle, from concept to delivery, gaining hands-on experience with Swift and Xcode.

Debugging & Stability

- Successfully debugged and resolved critical issues, improving the app's stability and ensuring a seamless experience for users.

Code Development

- Developed and maintained reusable, efficient, and scalable code, adhering to best practices in iOS development.

UI/UX Collaboration

- Collaborated with UX/UI designers to implement visually appealing and intuitive interfaces, contributing to positive user feedback and ratings.

Lab Research Assistant

Sept 2019 - Feb 2020

Universiti Teknologi Malaysia

Conducting Experimental Research

- Designed and executed experiments in alignment with the research objectives.

Machine Learning Research Papers

- Worked on various machine learning research projects, actively contributing to the development and publication of research papers.
- Collaborated with the research team to implement innovative machine learning algorithms, enhancing the overall quality of research output.

WordPress UTM Profile Websites Management

- Demonstrated proficiency in managing WordPress websites, specifically overseeing the development and maintenance of UTM profile websites.

Python Programming Assistance

- Provided valuable assistance in Python programming tasks, aiding in the development of scripts and programs essential for data analysis and project requirements.

Collaborative Teamwork

- Actively participated in research team meetings, contributing ideas and insights that fostered a collaborative and innovative research environment.

Project Coordination

- Assisted in coordinating various research projects, ensuring seamless communication and collaboration among team members.

Data Analysis and Interpretation

- Utilized advanced data analysis techniques to interpret research findings, providing valuable insights for project advancement.

IT Technician Intern

Sept 2016 - Jan 2017

SMK Dato Seth, Yong Peng

Developed Library Management System (VB.Net & Java)

- Successfully designed and implemented a robust Library Management System using VB.Net and Java, streamlining the organization's library operations.

Managing Computer Hardware & Software

- Provided essential support in managing and maintaining computer hardware, ensuring optimal functionality, and resolving technical issues promptly.

WordPress UTM Profile Websites Management

- Demonstrated proficiency in managing WordPress websites, specifically overseeing the development and maintenance of UTM profile websites.

Network Administration

- Assisted in the setup and maintenance of the school's network infrastructure, ensuring seamless connectivity and data transfer.
